

# Harrow Children's Centres

## Hub & Spoke model

# We have in place:- Main centre hubs and delivery sites

# L.A. Key Performance Indicators include:

**Children's achievement and outcomes – short and long term**

**Reaching those most in need of support – targeting via using comprehensive data intelligence**

**Improved parenting outcomes**

**Health outcomes for children and their families**

**Adult learning for families**

**A high quality skilled staffing team**

**Support, advice and guidance to the PVI sector**

**Improving lives for the communities in Harrow**

**Delivery of the Parents as First Teachers parenting programmes:**

---

**Early Intervention Services**

## About Harrow's Children's Centres

The current structure of Harrow's Children's Centres is developed around 3 Children's Centre 'Hub' groups. These include 5 main Children's Centres, offering Children's Centre services, together with 11 'delivery points', each of which offer a smaller range of services.

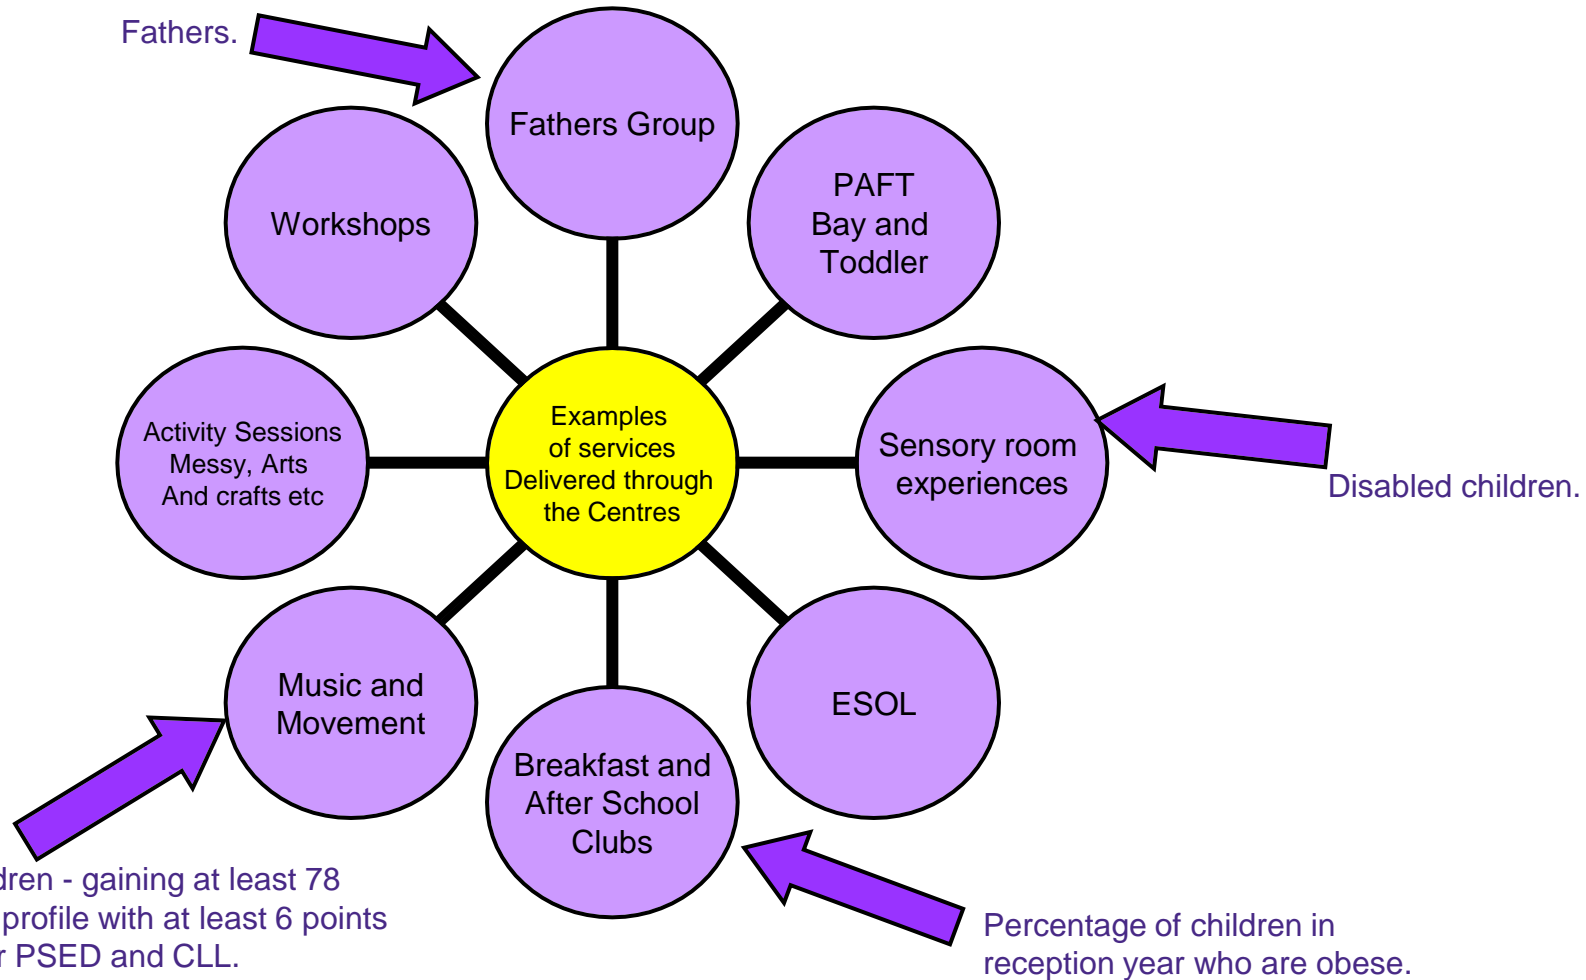

A new model has been agreed and will be implemented over the next 3 months, this will be developed around 2 Children's Centre 'Hub' groups.

These will include 2 main Children's Centres together with 8 'delivery points', this allows Harrow Children's Centres to meet the needs of those in the borough that are most in need of our support.

**We intend to:**

- **Continue to provide services to a high number of children**
- **Improve targeting of services for those most in need**
- **Maintain delivery of midwifery, health visiting services**
- **Continue delivery of speech and language therapy services**
- **Offer outreach services to additional venues**
- **Increasing our current support to the private, voluntary and independent sectors**
- **Sustaining preschool provision for 2,3 and 4 year olds**
- **Increasing the number of pre-school places for vulnerable children and 2 year olds**
- **Offering opportunities to develop community-run projects**
- **Ensure that supervised contact can be provided through centres**

# Types of services:

## Early Intervention Services
